

DESTROYED BY FIRE

Fire of unknown origin late last night destroyed three valuable pieces of the "White" gas type in the east line yards in this city. The machines were being shipped to Messrs J. W. Grant, A. Y. Malone and Mayor Joe Baker of this city and were valued at \$5,600. The fire is thought to have originated from a flying spark from the engine at some point between here and Thomasville and the flames from the blaze were scented by the railroad men before reaching Dothan. After finding the blaze at Dothan, the fire department was called out, and managed to save the box car in which the autos were loaded, only a slight damage being done to it. The remains of the burned cars are being kept at Dothan for the insurance inspector and will likely be sold here.

CARRIERS ENJOY MEETING AT TROY, ALA.

On Wednesday the Conecuh river Rural Carriers met at the court house in Troy, and held one of the best meetings which had ever occurred here. The box was called to order by the president, H. D. Russell, after which the meeting was addressed by W. O. Starke, Troy, able and efficient postmaster, Mayor W. B. Polmar, and by Julius Merritt, of Dothan, the president of the State Association. After the addresses adjournment for dinner was taken. In the afternoon the convention reassembled, with Mr. Merritt in the chair. There were a number of Committees appointed to look after the arrangements for the State Convention, which meets in Troy in July 4th and 5th, next. An enrollment of new members was made, there being twenty-seven receipts issued. Among the out-of-town carriers present were: Julius Merritt of Dothan, president of the State Association, J. J. Egan and R. C. Shaw, of Leverage, T. J. Rutledge, G. L. Myers, of Chat. Turner, of Lufkin, C. O. Barton, of Tennille, J. T. Brown, of Ames, W. H. Lawson and C. M. Goshen, of Goshen, J. H. McKinnon, of the Justice of Inverness, J. T. Boman, of Patsburg. The convention adjourned to meet here May 30th, next, at which time a lot of the carriers of adjoining counties are urged to be present. The occasion yesterday was enjoyed by the carriers, and the dresses were a source of inspection to each one, who goes some to a better carrier, and a number of the association which is for the elevation of the rural delivery men.—Troy Messenger.

COWS ARE OUT

The cows of this town don't stay in the lot as they are expected. It is a common thing for a wake up these mornings and find a drove of cows have spent the night on the lawns, taking their rest and eating up the nice flowers. People are trying to get growled. This is a season of the year when all of the women are interested in their flowers, and it is discouraging to have a drove of cows on the street every night. Every citizen should not let the opportunity of getting them in the road pass. Drive them right down and let the owners pay the fee. This will help.

DIRECTORS MEETING.

There will be a meeting of the Directors of the Farmers Union Warehouse Co. of Dothan, on March 15th (15th) for the purpose of letting the house for next season. Parties desiring to bid will mail bids to me or be at the warehouse on the above date. C. C. Dalton, Jr., Sec. -Troy, Ala., Feb. 25, 1911. W4-11

WHITE MAN ARRESTED ON BURGLARY CHARGE

Charged with breaking into the house of Mike Sherman, a negro, just before Christmas last year, Jake and Charlie Anglin, two white men, were arrested by Sheriff Hay today and lodged in the Houston county jail. It is said that Sherman swore out a search warrant for their house, furnishing sufficient evidence for the warrant and the house of the Anglins was searched. Sheriff Hay states that some of the property found in the house and on the person of Charlie Anglin was positively identified by the negro. When a hair brush was brought to light Sherman grinned and said, "Ah shohly is breshed mah hair wid dat bresh many a time. A watch which Sherman claims as his, was taken off Charlie Anglin. It is alleged that the principal articles with which the Anglins are charged with stealing consists of a watch, a tooth brush or two hair brushes and combs mirrors and other little toilet necessities. Until the jail was closed for the night, the Anglins had not made the necessary bond for their release until the preliminary examination can be made.

STROH—THE STROH VIOLIN

The ordinary violin has never been loud enough in tone to compete with the cornet. The Stroh Violin is as smooth in tone as the old wooden violin and as loud as the cornet. It was patented in Russia and there are only a few of them in America, one of which is at the Criterion and the manager will be pleased to show it to any one that will call on him in the afternoon. All musicians of the city are especially invited to see it.

CAME IN LIKE A LION

March, 1911, certainly sprang up on Dothan like a lion and all during today, which leads thirty others in the month, there has been no sign of a lamb. The wind has been exceeding the speed limit and the clouds of dust are worse than a fog. North Foster street recently plowed up for grading, looks like the desert of Sahara with no oasis, and the other streets are about as bad as the state of Delaware.

These children of today are the parents of the citizens of tomorrow and they must be the very best citizenship in the commonwealth of Alabama. They are now pressing forward with eager feet toward success and fame we hope and the City Improvement Club wants the opportunity to direct some of this overflowing energy and exuberance of spirit.

It is the purpose of Ward Two division of the City Improvement Club to organize a junior league and plan work for the boys and girls that is calculated to create civic pride and love of home.

If sufficient interest is manifested by the children and their parents meetings will be held at regular intervals and the children will be entertained with story telling and other features that will cultivate a taste for reading and nature study.

John Ellis, Minnie Blackmon and Belle Barnes were appointed as the Color committee and Hyman Lovins and B. F. Green as well. Committee. The ushers appointed were Cora Glen Faircloth, Jennie Mae Ward and Rosemary Lee.

CERERIAN NOTES

The Cererian Literary Society held its regular meeting Monday, February 27th, 1911, in Mr. Baird's room. A fine program was carried out to the enjoyment of all.

The debate, Resolved That the Eyes are More Useful than the Tongue, was won by the affirmative side. Miss Eyle Alifton was given the honor of making the best speech.

A very interesting talk was made by Mr. Baird on how we should improve our society.

Last Wednesday was the day appointed to give books to the school library. One hundred and twenty-five books were received. At the beginning of the year we had about six hundred books. By the Eagle library contest, we gained six hundred making a sum of one thousand and three hundred twenty-five books, we have now.

WIDOWS

From Life
Widows exist in all countries, thus counterbalancing the matrimonial decadence which might otherwise result from thid men. Widows are illing by temperament and attach themselves readily to any object that can't help itself. It is generally conceded unlucky to meet a widow on a dark piazza by the light of the moon. In many countries to be faced by a widow means endless trouble. Widows are frequently accompanied by children whose number is constantly liable to increase. They roam at large over the principal towns, and no man is safe when they are near. All the perfect men now dead have married widows, thus forming a continuous contrast to the miserable specimens who still live. It has been said. Beware of widows, but this is unnecessary for no man can help himself.

Sometimes foolishness is worse than madness. No one ever took the first drink with the ultimate intention of acquiring delirium tremens and pawing the family silver.

Without knowing much about the commission form of government, there are plenty of men who would chance it in preference to that now exercised over them by their wives.

"Foley's Honey and Tar is the best cough remedy I ever used, as it quickly stopped a severe cough that had long troubled me," writes J. W. Kuhn, Princeton, Nebr. Best weather to have the garden set up, this.

The South spent \$40,000,000 for school houses during 1910. Not a bad record.

The wives of millionaires are not happy as a class, which fact the court records bears out.

DuPont, the powder man, has donated a million dollars to good roads been trying to secure for such.

February wasn't much of a month, after all, but there has been worse weather than it gave us on this trip.

The outlook for a spring business with the merchants of Dothan is good. They are having good sales now.

Spring is approaching rather hurriedly. In fact, some have reported the arrival, and not a sign of a baseball nine for Dothan.

There is a feeling of fear, and one of joy that the legislature will probably do nothing but tinker on the whiskey question.

Almost any editor can clip better stuff from some other paper than he can write for his own, but it isn't a good idea to do too much of it.

Montgomery is going to be mighty lonesome when the legislature adjourns, and it had as well begin to boost up the Montgomery ball team.

Dr. Wiley, the pure food expert, has married. Now one may watch for a different tone in the statements he makes. His wife will probably edit his statements.

Farmers and guano manufacturers will now rest easy and contented. A German geologist has given out the official statement that the world has enough potash to last 621,000 years.

Grimm is getting entirely too free advertising over the Dothan Arnold disappearance. He will be in local politics next thing we hear of him.

The merchant who goes out after business the year round systematically, rarely ever complains of a dull business. The public soon learns that he is in earnest, and that he is wanting the folks to deal with him every day in the year.

Who has seen one of the petitions asking that an election be called to vote on whether or not we shall have whiskey? The petitions are reported out, but we have seen no one who has been asked to sign one.

Birmingham has uncovered some pretty grafting in connection with the old system of running a town. It is probable that as soon as competent men can be appointed commissioners that this will cease. If it does not, then there is a way to stop it. The recall does the work.

We didn't think that the hobble skirt would gain much popularity, and it really didn't, but then there are more people wearing them than we thought would take the habit. Therefore, as to the harem skirt, we make no prediction as to what they will do. It is possible that some will take to the habit. If they do, we cannot promise to let the matter pass.

It is reported that the government, or that bunch of it that is responsible for the Congressional Record, is considering putting out the periodical at a dollar a year. Let them. We don't fear that sort of competition near as much as we do envelope printing that the government indulges in.

You will find men who will vote for whiskey, but who would hate to put their names down on a petition asking for an election.—Dothan Eagle.

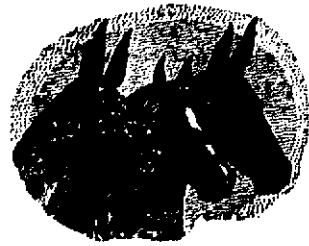

Right you are, Mr. Eagle man. And especially as this list has to go to the probate court, becomes public property, and any newspaper desiring to do so may publish the list of such names. And there are many newspapers that will freely give the space and cost of type setting to let their readers know "who's who" in such an important matter.—Opelika News.

"THE GAME"

"The Game" at the Elite last evening, presented by the Mabel Paige Company was a good show and received much deserving applause. It was very much like the attraction of Monday night offered by this company, and instead of being a comedy with fun and singing running through it was very much unlike the play and a deeper play.

This show closed their engagement here and left this morning for Albany, where they will play.

The next attraction at the Elite will be "A Japanese Honeymoon," which will appear here on Friday night.

Business Concerns Mentioned.

Manager Wall, of the Elite Theatre, announces that "A Japanese Honeymoon" company which he has been trying to secure for a great length of time, has at last been secured and will play at the Elite on Friday night.

It is a well known fact that the Montgomery show going public went fairly wild over this show, while in Birmingham, they were hardly less cordially received.

James A. Beall, the author of the play, takes an important part in the play and was born and raised in Montgomery. During the engagement of the company at that place, the four principals, Misses Caldwell and Tarleton and Messrs Beall and Herbert, were feted much by society in the capitol city.

More about this popular company may be seen in the newspapers later, and on the boards at Nix's Drug Store.

SETTLING FOR THE HAMS

A few weeks ago, Mr. S. R. Brackin, who lives near Headland, brought a load of hams to Dothan and sold them. They were spoiled, or many of them. A warrant was sworn out for him, as it was a violation of the law, and yesterday Mr. Brackin came to Dothan to see if he could do anything to satisfy the folks and stop the suit. He went to many of them and satisfied them by paying back the money, but there might be some he didn't see, and those he missed might take it up with him by mail.

He expresses his willingness now to do what is right, since he has been arrested and put under bond.

There have been few cases of this character and the outcome of this suit will have a good influence on people who may think they can sell spoiled or damaged meats to the public and get off at it.

LINWEAVE.

The white goods beauty of 1911 has all the appearance and qualities of linen at 1-3 linen cost. Will not crush or wrinkle and retains its finish after washing. The 1911 vogue for clinging outer and under garments calls for shirtness as never before. No other fabric is finished quite so well to meet this demand as linenweave. We have it at 15, 19, 25, 29, 33 and 50 cents. Also in heavier linen effects for summer coats and skirts at 12 1-2, 15, 19, 25 and 35 cents.

CORRECT DRESS FOR WOMEN

Warning to Railroad Men

Look out for severe and even dangerous kidney and bladder trouble resulting from years of railroad life. Geo. E. Bell, 639 Third Street, Fort Wayne, Ind., was many years a conductor on the Nickel Plate. He says: "Twenty years of railroading left my kidneys in terrible condition. There was a continual pain across my back and hips and my kidneys gave me much distress, and the action of my bladder was frequent and most painful. I got a supply of Foley Kidney Pills and the first bottle made a wonderful improvement. Four bottles cured me completely. Since being cured I have recommended Foley Kidney Pills to many of my railroad friends." Sold by N. H. McCallum. tal

Dear Sir:—

I have been using Grange Mixture ever since you have been making it. I quit a year or two but went back to it. Last year I put nine bags on five acres and got 2070 lbs. lint cotton off of that five acres. I put seven sacks of Grange Mixture on six acres of corn and I got forty-five bushels to the acre.

Yours truly,
